## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### **Title**

Leadframe Having Lead Locks to Secure Leads to Encapsulant

#### **Claims**

Claim 42 is cancelled.

#### ***Allowable Subject Matter***

Claims 32-41 and 43-50 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 32-36,43,44,47 and 49 are allowable because prior art does not disclose alone or in combination along with the limitations of the independent claim such as a plurality of lead arranged adjacent the paddle, at least some of the leads each having a lower surface, an upper surface and a lead lock comprising at least one disk shaped protrusion which is partially defined by the upper surface of the lead and includes a

bottom disk surface positioned between the upper surface and lower surface of the lead.

Claims 37-41,45,46,48 and 50 are allowable because prior art does not disclose alone or in combination along with the limitations of the independent claim such as a plurality of leads arranged adjacent the paddle, at least some of the leads each having a lower surface and a lead lock comprising inclined sidewalls having increased width defined therebetween in an upward direction from the lower surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
